Women Enabled International's CSW 63 Parallel Event: **Rights-Based Sexual and Reproductive Health and Rights and Gender-Based Violence Services for Women and Girls with Disabilities**

Thursday, 14 March 2019

12:30 pm – 1:45 pm

4 W 43rd Street, Aqua Room, New York City

Women Enabled International (WEI) invites you to join us for a conversation about the need for and provision of human rights-based gender-based violence (GBV) and sexual and reproductive health and rights (SRHR) services for women and girls with disabilities around the world. The event will introduce attendees to the WEI and UNFPA's publication, *Women and Young People with Disabilities: Guidelines for Providing Rights-Based and Gender-Responsive Services to Address Gender-Based Violence and Sexual and Reproductive Health and Rights*, an innovative publication launched in November 2018. The event will feature experts in the field who will speak to the barriers that women with disabilities in their communities face to accessing disability- and gender-responsive services. The event will further highlight examples of good practices concerning accessible and inclusive GBV and SRHR service delivery.
